Zuzovsky, R. 399

SUBJECT INDEX

Accuracy standards 284
Achievement-related choices 431
Adolescents, handicapped, transition programs 197, 211
Adult education, impact evaluation 335
Advanced placement courses, U.S.A. 468
Advanced science, U.S.A. 457
  gender differences 477
Adversary model 225
  applicability to investigative designs 491, 493
Agriculture, examination standards 516
AIDS education 41–62
Argumentation, decision-making 532, 536
Assessment for transition programs 300
Attitudes, science learning, gender differences
  Israel 378, 385
  Netherlands 434
  Sweden 451
  U.S.A. 480
Audit Guide 291

Bait and switch review 30
BBC, Broadcasting Research Departments 100
Benchmarking 18, 20
Behaviourism 324
Bias, computer product evaluation 29, 30
Biology
  advanced achievement scores, U.S.A. 465, 473
  external examination standards 517
  gender differences, U.S.A. 477, 483
  international comparison, SISS 461
  Israel 404
  Netherlands 425, 428
  Sweden 445
Botswana, standards of external examinations 514
Broadcasting, ETV, Israel 73
Broadcasting research 97–113
Broadcasting Research Departments 100
  model of 105
Business schools 7

Cambridge Local Examinations Syndicate 513, 515, 524
Cambridge Overseas School Certificate 514
Camera perspectives, impact on perception of a speaker 133–156
Causalities 233
Centre for International Agricultural Development Corporation 335, 339
Chemistry
  advanced achievement scores, U.S.A. 465, 473
  external examination performance 519
  international comparison, SISS 462
Classroom organisation, disabled students 305
CODOM 529, 535, 536, 544
COI 63
Communication research 97, 103
Community-based instruction 306
Community Based Transition Project for Severely Handicapped Youth 280
Compositions, reliability and generalizability of ratings 501
COMPRO 64, 67
Computer Based Training 39
Computer modeling, impact of interactive video 116, 125
Computer product evaluation
  analysis, investigation and synthesis 33
  implementation 10
  management 8
  quality control 3
  sources of error 23
  'state of the art' 15
Computer-related educational evaluation, Netherlands 63–72
Concept analysis, handicapped 321
Connoisseurial model, applicability to investigative designs 491, 495
Constructionists 322, 323
Context and evaluation 231
Context–input–process–product model, applicability to investigative designs 491, 495
Cost effectiveness analysis, interactive video 126
Cost-effectiveness models, applicability to investigative designs 491, 495
Courseware evaluation 36, 63, 66
Cronbach's Alpha 505
Curriculum conferences, decision-making 529

Decision-making, curriculum conferences 529
Deductive instruction 304
Design flexibility 210
Developmental program evaluation 490
Diagnostic labelling 299
Disability 298

Educational Products Information Exchange 38
Educational software evaluation 36, 64, 66
Education of the Handicapped Act 261
Effectiveness evaluation 257–269
  interactive video 123

Eisner, E. 491, 495
Emergent programs, flexibility in evaluation 209
Employment, transition programs, handicapped youth 252, 310
Environmental assessment 301
Epistemic elements in evaluation research 319
Essay-type tasks, ratings 501
Ethnic origin, science learning in Israel 373
ETV evaluation 73–96
  auditory attributes 79
  didactic strategies 82
  genre 80
  mapping sentence 75
  media environment 84
  orientation 81
  viewing contexts 85
Evaluability assessment 161
Evaluation double pyramid 15, 16
Evaluation models 224
  investigative designs 489
Evaluation Research Society Standards 292
Evaluation Training Consortium 278
Evaluation utilization 157, 161, 181
Examination performance, linear model 517
Expectations, science, gender differences 432
Experimental schools, Netherlands 64
External examinations, standards 513

Feasibility Standards 283
Flexibility, evaluations of emergent programs 209
Formative evaluation
  ETV 77
  interactive video 122
Foundationalism 322, 323

Generalisation 234, 235
Gender differences, science learning
  Israel 373
  Netherlands 421, 426
  Sweden 449
  U.S.A. 477, 479
Girls into Science and Technology 478
Goal-free model 224
  applicability to investigative designs 491, 494, 496
Guba, E. 225, 491, 494

Hamburg writing study 502
Handicapped adolescents, transition programs 197–207, 211, 248, 278, 280, 298, 319, 329
Hardware evaluation
  implementation 10
  management 8
  process of analysis, investigation and synthesis 33
  quality control 3
  sources of error 23
  'state of the art' 15
Health campaigns 43
HIV infection 41
Homework, science, gender differences 436
Human and social biology, external examination performance 519

Impact evaluation
  interactive video 124
  international training courses 335
Independent Broadcasting Authority 101
Independent living 310
Individualized educational plan 309
Individualized transition plan 308, 309
Individualized written rehabilitation program 309
Inductive instruction 304
Informatics Stimulation Plan 64
INKON 64
In-service training 364, 366
Institutional values 247, 249
Interactive evaluation 350
Interactive video, redirecting evaluation of 115–131
Interagency collaboration, transition programs 198, 278
International training courses, impact evaluation 335
Investigative journalism model 225
  applicability to investigative designs 491, 494, 496
Investigative designs, evaluation models 489
Israel
  ethnic origin, sex and science learning 373
  evaluation of ETV programs 73–96
  science knowledge acquired within and outside school 399

Joint Committee's *Standards* 271, 274, 281

Learning disabilities 298
Least Restrictive Environment 186, 192
LEFOMO project 366
Levin, H.M. 491, 495

Macro Argumentation Structure 529, 533, 536, 541
Mainstreaming 251, 252
Management, computer industry 8
Mass media research 97
Mastery, science, Israel 405, 416
Mathematics Test, SISS 465
Media education, AIDS 41
Media environment 84
MENT-project 428
Microcomputers, quality control 4
Microsoft Word Release 3, 23
Modus operandi model 225
  applicability to investigative designs 491, 494
Motivation, ethnic origin, sex and science learning in Israel 373, 385

Multiple-design flexibility 216
Multiple Sequence Model of Decision Development 531

Narration and visual messages 79
Negotiated evaluation 350, 351
Netherlands
  computer-related educational evaluation 63–72
  SISS, gender differences 421
North Eastern State Evaluation 181

Objectives-based model 224
  applicability to investigative designs 491, 495
Office of Special Education and Rehabilitative Services 200, 211, 257, 261
Opportunity to learn, science
  Israel 400, 402, 414
  Netherlands 426, 435

Patch-up designs 216, 225
Patton, M. 224, 225, 491, 493
Perseverance, science, gender differences 436
Physics
  advanced achievement scores, U.S.A. 465, 473
  external examination performance 522
  gender differences, U.S.A. 483
  international comparison, SISS 463
  Israel 404
  Netherlands 428
POCO 64, 67
Poole, M.S. 531
Positive bias 29
Positivism 324
Preschool handicapped children, transition programs 211
PRINT 65
Priority Standards 284
Product evaluation 15
  training 13
Professional life cycle of teachers 362
Professional standards in evaluation 271–296
Professional training, impact evaluation 335
Program development 161
Program evaluation 163, 165
  interactive model 168, 169
Program Evaluation Analysis Computer 46
Program modeling 125
Program theory 215
Public Law 98–199, 200, 211, 259, 261

Q-5 technique 325

Rehabilitation Act 261
Reliability-testing, analysis instruments for decision-making 529
Research Triangle Institute 459
Research utilization 157, 159
Responsive evaluation 162
Responsive/portrayal model, applicability to investigative designs 225, 491, 496

San Mateo Educational Research Centre 38
School evaluation, Switzerland 349
School knowledge 416
School, role in acquisition of science knowledge 399
Science
  achievement, U.S.A. 457
  attitudes and achievement, Sweden 443
  ethnic origin and sex differences in Israel 373
  gender differences, Netherlands 421, 426
  gender differences, U.S.A. 477
  knowledge acquired within and outside school 399
Scriven, M. 225, 491, 494
Secondary Post-Compulsory Innovation Plan 366
Secondary/Transition Intervention Effectiveness Institute 202, 212
Secondary/transition projects 259
Second International Science Study
  international comparisons of achievement 461
  Israel 373, 399
  Netherlands 421
  Sweden 443
  U.S.A. 457, 477
Self concept, science learners 374, 385
Self-evaluation, Swiss schools 349, 352, 356, 361
Sex differences, science learning
  Israel 373
  Netherlands 421
  Sweden 449
  U.S.A. 477, 479
Similar benefits regulations 307, 308
Similarity 236
Single-design flexibility 217
SIPRI project 356
Situational context and evaluation 231–246
Societal values and transition programs 247–256
Socioeconomic status, science learning, Israel 377, 383
Software and Courseware Evaluation Centre for the Netherlands 64, 66
Software evaluation
  COMPRO 64
  courseware 36
  implementation 10
  management 8
  process of analysis, investigation and synthesis 33
  quality control 3
  sources of error 23
  'state of the art' 15
Speaker, impact of camera perspectives 133
Special education
  professional standards 271, 278
  utilization-focused evaluation 181
Special education transition programs
  handicapped adolescents 198
  federal expectations and local capabilities 257
  societal values 251
Spontaneous knowledge 418
Stake, R. 224, 225, 491
Stakeholder evaluations 174, 187

Standards 271
Standards for research, transition programs 299, 315
Stufflebeam, D.L. 491, 495
Subject choice, gender differences 428
Success 328
Summative evaluation 164
Sweden, science achievements and attitudes 443
Switzerland
  school evaluation 349
  school system 355
Systems-grounded discrepancy evaluation 278

Teachers
  science 439, 470
  Switzerland, professional life cycles 362
Technology, Sweden 445
Teletext 84
Television
  impact of camera perspectives 133
  Israel 73
Television research 98
Transition Institute 202, 212
Transition programs
  effectiveness, federal expectations and local capabilities 257
  epistemic elements in evaluation research 319
  flexibility in evaluation of emergent programs 209
  handicapped adolescents 197
  needed research on evaluation 197
  professional standards in evaluation 271
  research on evaluation 297
  situational contexts, evaluation design and use 231
  societal values 249
Triangulation 253
Tyler, R. 224, 491, 495

U.S.A., advanced science student achievement 457
  sex differences 477
Utility standards 281
Utilization-focused evaluation 181–194, 224, 491, 493
Utilization research and evaluation 157–179
Utrecht Courseware Evaluation Project 64, 66

Values, transition programs 247
Vee diagrams 326
Verbal interaction, coding 535
Viewing contexts 85
Vocational education 305, 335

Wolf, R. 225, 491, 493
Word Knowledge Test, SISS 465
WriteNow 34
Written composition, ratings 501

Zimbabwe, standards of external examinations 514
